# About Us

---

Asias Electricals is a leading supplier of LT & HT electrical equipment, a trusted service provider, and a Government Approved A-Grade Electrical Contractor in Tamil Nadu. Established in December 1996 by Mr. M. J. Ravichandran, the company was built on strong industry experience in electrical, solar, and telecommunication product marketing across major business centers in India. Over the years, we have grown into a reliable and technically competent organization. Our team comprises qualified engineers, supervisors, technicians, and skilled professionals supported by modern infrastructure. We are committed to delivering dependable, high-performance electrical solutions for industrial and commercial needs.

WE DELIVER RELIABLE  
POWER SOLUTIONS  
**WITH TRUST AND COMMITMENT..**  
EVERYDAY.

## What We Do?

---

We provide end-to-end electrical solutions for LT & HT systems, including design, supply, installation, testing, commissioning, and maintenance. Our services cover substation works up to 33kV, cable laying and terminations, EB liaisoning and approvals, and Annual Maintenance Contracts. We also offer prompt breakdown support to ensure reliable and uninterrupted operations.

## How We Do It?

---

We execute every project with experienced engineers, skilled manpower, and strict adherence to safety and statutory standards. Through efficient planning, quality workmanship, and close coordination with clients and authorities, we ensure timely and cost-effective delivery. Our responsive service approach ensures long-term performance and reliability of electrical systems.

# Vision

To deliver state-of-the-art electrical solutions with cost efficiency and timely project execution.

# Mission

To provide the right electrical solutions through appropriate applications and technical expertise, at the right price, with a strong commitment to timely execution and complete customer satisfaction.

# Values

We follow a customer-first approach with prompt support and reliable service, while ensuring strict compliance with safety and statutory standards. With trusted products, strong technical expertise, and a commitment to integrity, we deliver dependable quality in every project.

## ASSISTANT EXECUTIVE ENGINEER

”

**This is to certify that ASIAS ELECTRICALS owned by Thiru. M. J. Ravichandran have attended to fault such as SF6 leak and complete maintenance of 33KV SF6 Breaker in Guindy 110 KV substation to our fullest satisfaction. Moreover their technical team are employed by the company to do repair works, fine in their job and cool in handling issues. I wish them all success in their career.**

# Our Unique Selling Proposition

## COMMUNICATION

We maintain prompt and transparent communication, ensuring quick responses, technical clarity, and timely project updates at every stage.

## EXPERIENCED PROFESSIONALS

Our team of skilled and experienced professionals works round the clock to deliver quality execution, reliable performance, and timely project completion.

## LONG TENURE

With 28 years of experience in the HT electrical field, our experienced team brings strong technical expertise and proven reliability in delivering efficient and dependable power solutions.

## CERTIFIED

Authorised stockist for Megawin (up to 36kV) and authorised dealer for SCAME (Italy), supplying certified medium voltage equipment and IEC-compliant industrial plugs and sockets.

## PRODUCT RANGE

We supply a comprehensive range of HT electrical products up to 33kV, including VCBs, relays, SF6 panels, switchgear, and related equipment, tailored to diverse project requirements.

## GROWING INFRASTRUCTURE

We supply HT panels up to 33kV for healthcare, industries, factories, power plants, and commercial sectors, supporting reliable and growing infrastructure needs.

## STRONG SERVICE

We deliver comprehensive HT service solutions up to 33kV, including maintenance, fault rectification, thermography, overhauling, testing, and commissioning, ensuring reliable performance and minimal downtime.

## GOVERNMENT APPROVALS

Our strong liaison with TNEB and CEIG enables timely statutory approvals, ensuring smooth compliance and uninterrupted project progress.

# Industries

---

## Steel Industry

---

We deliver HT panels up to 33kV for the steel industry, engineered for heavy-duty performance, reliability, and uninterrupted operations.

## Healthcare Industry

---

We have supplied and serviced HT panels up to 33kV for leading hospitals including Apollo, Velammal, Adiparashakthi, and Chettinad, ensuring reliable and uninterrupted power for critical healthcare operations.

## Hospitality Industry

---

We have supplied and serviced HT panels for leading hotels including Taj, Radisson, GRT Grand, and Hotel Maris, ensuring reliable and uninterrupted power for hospitality operations.

## IT Sector

---

We have supplied and serviced HT panels for leading IT organizations including Wipro, Cognizant, HCL, TCS, and STPI, ensuring reliable power for critical operations.

## Real Estate

---

We have supplied and serviced HT panels for major real estate projects including Appaswamy, TN Housing Board (1000 flats), and Arihant, ensuring reliable power for large-scale developments.

## Government Bodies

---

We have supplied and serviced HT panels for major government institutions including Madras High Court, Airports Authority of India, ISRO, and the Institute of Hotel Management, supporting critical public infrastructure.

# Our Clients

WE'VE SERVED OVER 2000 CUSTOMERS

Since 1998

# Major Projects

WE'VE EXECUTED OVER 1500 PROJECTS

## ISRO

In 2021, we serviced 13 VCBs at the control centre substation of the Indian Space Research Organisation (ISRO), ensuring reliable and safe operation of a critical facility.

## Metropolitan Transport Corporation

We are supplying 33kV RMG and multi-panel HT VCB systems at four locations for the Metropolitan Transport Corporation, supporting reliable power for public transport infrastructure.

## Airport Authority of India

We provided end-to-end HT and LT maintenance for the Airports Authority of India, including ACB servicing, DG power system support, HT VCB panel servicing, and HT CT replacement at the Remote Bay substation, ensuring reliable operational performance.

## Tube Investments

We supplied and installed single, 5-panel, and 7-panel HT VCB systems for Tube Investments, along with MOCB to VCB retrofitting with new truck in 2009, improving system reliability and safety.

## MVR Cinemas

We supplied and commissioned an 11kV, 3-panel RMG and 800 kVA Indoor USS for MVR Cinemas, Guduvanchery, ensuring reliable power infrastructure.

## L & T Construction

For Larsen & Toubro, we executed the supply, erection, testing, and commissioning of 630A RMU panels, including 6-way and 5-way RMU installations at Manapakkam, ensuring reliable power distribution.

## Lucas TVS

We executed the supply and installation of single HT panels, a 3-panel RMG, and multiple indoor HT VCB panels for Lucas TVS, ensuring safe and dependable power distribution.

## ETA Techno Park

For ETA Techno Park, we executed the supply and installation of RMG and HT panels, along with testing, commissioning, and ongoing servicing to ensure reliable system performance.

## WIPRO

We provided end-to-end servicing for Wipro, including ATS and LT ACB maintenance, 11kV HT VCB servicing, and complete HT substation reconditioning to ensure dependable power operations.

## Mainetti

We supplied and installed a 2500 kVA transformer, 11kV HT VCB, and a fabricated sub-panel for Mainetti, along with complete erection, testing, and commissioning.

# Government Orders

WE'VE SUCCESSFULLY EXECUTED GOVERNMENT ORDERS AND PROJECTS WITH PROVEN RELIABILITY AND COMPLIANCE

PROJECT	DESCRIPTION	VALUE OF WORK	PO NO. & DATE
Airport Authority of India	Servicing of ACBs in various LT Panels	1,48,800	AAM/ENGG/AMD 11/902(11)/07/AN. 83dt 15.11.07
Airport Authority of India	Servicing of ACBs in various LT Panels	2,31,000	M/ENGG/AME 11/902(11)/07/AN. 82dt 15.12.08
Airport Authority of India	Power Supply and Standby DG sets at CIA	1,12,200	AAM/ENGG/AME 11/902(11)/07/AN. 82dt 15.12.08
University of Madras	Servicing of HT & LT Transformers Oil Circuit Breakers, LT panel boards	1,78,021	F7/Bldgs/Chepauk /Elect/2009/431 dt. 31.08.09
Bharat Sanchar Nigam Ltd	Replacing of potential Transformer in RMG Room	1,40,765	1538 dt 6.8.12
Airport Authority of India	Servicing of 11KV HT VCB Panels of MEI and Replacement of HT 11KV CTs at remote Bay Substation	5,63,772	AM/ENGG/AME D 11/2015- 16/A.85 dt 01.02.16
Indian Space research Organisation	Servicing of 11KV HT VCB panel at Control Centre Substation	2,15,390	MD/EMS/EST/E- 116/2020-21 dt 25.02.21
Software Technology Parks	Servicing of VCB Mechanism Assembly, Supply and Installation of Spares for 11KV HT RMG unit	1,70,339	CMD/EMS/EST/E- 116/2020-21 dt 25.02.21
Cushman & Wakefield PMSIP Ltd	General Servicing of 11KV Vacuum Circuit Breakers	5,34,774	STPIC/PUR/010/20 14-15/055 dt 28.08.14
Software Technology Parks	Supply and Installation, testing and commissioning of MEI make 11KV 500MVA 3 Phase 50Hz outdoor type ring main gear unit	8,56,064	CZR/SPO/00020/1 617 dt 08.06.16
Software Technology Parks	Servicing of Ring Main Gear Unit (RMG unit)	3,92,075	STPC/Admn/071/2 006-07/15239 dt 16.03.2007
University of Madras	Replacement of 11KV CT in 11KV RMG	1,90,924	GCCO/JE/2021-22
University of Madras	Room replacement of 500KVA Transformer	2,97,477	F7/Bldgs/Elect/20 21/031 dt 07.02.2

# Our Completed Projects

# Our Completed Projects

# Product Range

## VCB

Vacuum Circuit Breakers (VCBs) up to 36kV with ratings up to 2000A and 25kA short-circuit capacity for reliable medium-voltage protection. Spring-operated, mid-mounted cassette design, available in indoor/outdoor versions and suitable for panel line-ups.

## LOAD BREAK SWITCH

Load Break Switches up to 36kV, 630A with 25kA short-time withstand capacity, designed for safe and reliable switching in medium-voltage systems. Compact and proven design with fuse-operated tripping, mechanical earth switch interlock, and live line indicators for enhanced operator safety.

## PC VCB

Porcelain Clad Vacuum Circuit Breakers are structure-mounted outdoor breakers for 12kV and 36kV systems, designed for reliable operation in overhead line and cable networks. Equipped with proven vacuum interrupters and adequate phase clearances, they ensure safe and dependable performance in outdoor installations.

## CAST RESIN TRANSFORMERS

Cast Resin Transformers from 3.3kV to 33kV (up to 3MVA) with copper or aluminium windings and Class F insulation for safe and reliable operation. Designed for energy efficiency with low-loss options as per ECBC guidelines and available with optional OLTC for voltage regulation.

## RMU

Ring Main Units (RMUs) are compact, sealed-for-life SF6 switchgear designed for reliable 12kV secondary distribution. Automation-ready with extensible and non-extensible options, these units are suitable for indoor/outdoor applications and offer flexible switching configurations with a single busbar.

## LOAD BREAK SWITCH

Load Break Switches up to 36kV, 630A with 25kA short-time withstand capacity, designed for safe and reliable switching in medium-voltage systems. Compact and proven design with fuse-operated tripping, mechanical earth switch interlock, and live line indicators for enhanced operator safety.

## SF6 LBS

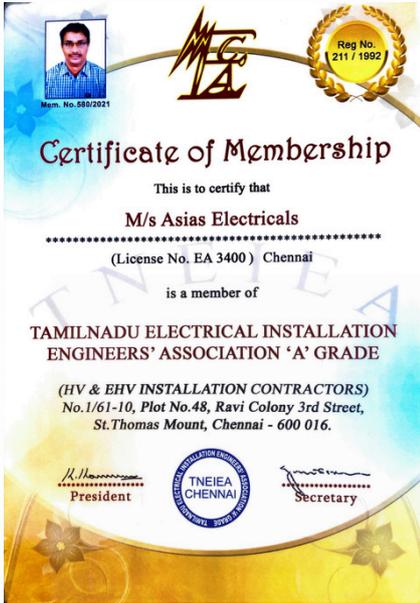

SF6 Load Break Switches are factory-assembled, sealed-for-life compact switchgear designed for reliable 12kV secondary distribution. Automation-ready with extensible and non-extensible options, they are suitable for indoor/outdoor use and offer flexible switching configurations with a single busbar.

## RELAYS

Feeder Management Relays provide complete protection, control, and monitoring for overhead lines and underground cables across all distribution voltage levels. Designed with advanced technology, they offer accurate measurements, SCADA/DCS compatibility, digital communication, and reliable performance in harsh environments.

Government Approved A-Grade Electrical Contractors delivering end-to-end electrical solutions up to 33KV across South India since 1996. With decades of hands-on expertise, we support industries with safe, compliant, and performance-driven electrical infrastructure. From Chennai and Kolkata to Mumbai, Ahmedabad, Kerala, Karnataka, and Madhya Pradesh, this experience laid the foundation for building a technically strong and service-oriented electrical organization.

# Standard Operating Procedures

## ENGINEERING & PLANNING

1

We undertake detailed load studies and efficient system design to ensure reliable and optimized electrical solutions. Our scope includes preparation of technical drawings along with complete documentation and support for statutory approvals.

## EB POWER APPROVAL

2

We coordinate with the Electricity Board and CEIG for inspections, statutory clearances, and timely power connection. Our team ensures smooth approval processes in compliance with all regulatory requirements.

## TESTING & COMMISSIONING

3

We carry out complete system testing, fault identification, and safe energization of electrical installations. All activities are performed with performance validation in accordance with statutory authority norms and standards.

## SUPPLY & INSTALLATION

4

We undertake procurement and installation of LT and HT equipment, including complete substation works up to 33kV. Our services ensure quality materials, proper installation, and reliable system integration as per industry standards.

## MAINTENANCE & SUPPORT

5

We provide Annual Maintenance Contracts with scheduled preventive servicing to ensure reliable system performance. Our team also offers prompt emergency breakdown support to minimize downtime and ensure operational continuity.

## EMERGENCY SERVICE & FAULT MANAGEMENT

6

We follow a structured approach for routine service checks, preventive maintenance, and systematic fault diagnosis. With a strong focus on rapid response and emergency service support, our team ensures quick fault rectification, minimal downtime, and reliable system continuity.
